AN ITCHING PALM

No Cure for It. Other Forms of Itching Preferable.

There is no cure for an itching palm—the money kind. Even poslam, the new skin discovery, cannot help it. But when it comes to eczema, the most annoying of itching skin troubles, poslam will stop the itching at once and cure the worst cases in a few days. So with itches, rash, hives, split toes, piles, and scaly scalp, all of which are different forms of eczema, accompanied by severe itching and caused by imperfect digestion and acid diet.

Poslam comes in two-dollar jars, but fifty cents' worth will answer in curing any of the diseases mentioned. It can be had of any druggist. Jerome Hamilton's Pharmacy makes a specialty of it.

That results are immediate will be amply demonstrated tonight by the use of the experimental sample which the Emergency Laboratories, 32 West Twenty-fifth Street, New York City, will send by mail, in plain wrapper, to any one who will write for it.

TO DEFEND PANAMA CANAL AT COST OF \$7,000,000

Washington, May 25.—Fortifications to cost approximately \$7,000,000 are to be built to defend the Panama Canal. In the twenty days Secretary of War Dickinson spent in looking over the ground he and Major Gen. J. Franklin Bell, Chief of Staff, went into the matter carefully. The significant feature of their tentative decision is that the most powerful and elaborate batteries are to be planted so as to repel attacks from the Pacific Ocean.

There are to be three batteries on the Pacific side. Lying off the mouth of the Canal are fifteen islands, and the three selected for the fortifications are between ten and fifteen miles off shore. They are Flamenco, Culebra, and Naoas Islands. On the coast line there will be batteries, also, situated at Ancon and San Juan. The estimated cost of these fortifications without equipment is \$3,500,000.

Six miles up the Canal from the Pacific Ocean there is to be a secondary battery. This will command the principal lock at Pedro Miguel, and the estimated cost will be \$500,000. At Naoas, about the middle of the big ditch, a military post will be constructed at a cost of \$250,000.

On the Atlantic side the arrangement will be much more simple. A range of hills run down to the sea, commanding the entrance to the Canal. Upon them, at El Boco Point, modern batteries will be constructed at a cost of \$2,500,000.

It is planned to mount in these fortifications more than sixty of the highest power disappearing guns. None of these will be less than 12-inch calibre, and they will run as high as 16-inch in the main batteries. The secondary batteries will be of lower calibre, but they will be more numerous.

SARGENTS IMPRISONED FOR MALTREATING YOUNG CHILDREN

Paris, May 25.—On the charge of having maltreated young children confined to their care, Cecil H. Sargent, an Englishman, and his American wife, who was Josephine Savin of New York, have been found guilty in the Correctional Court. Sargent was sentenced to two years' imprisonment and his wife to thirteen months' imprisonment. In addition, a small fine was imposed on each of the defendants.

EDITOR ARRESTED FOR CARTOON ON TAFT

San Juan, Porto Rico, May 25.—Joaquin Beltrero, editor of a weekly paper given over to the publication of caricatures and called El Carnival, has been arrested here by the Federal authorities, charged with sending improper matter through the mails. The charge is based on a cartoon of President Taft and a reference to his recent message on Porto Rico. Beltrero was held in \$5,000 bail.

SENATE VOTES STRONGLY AGAINST FREE LUMBER

Washington, May 25.—The Senate defeated the McCumber free lumber amendment to the tariff bill by a vote of 56 to 25 yesterday afternoon. Fifteen Republicans declared opposition to the lumber rates carried in the pending tariff bill.

It is believed now that the duty on rough lumber will be increased from \$1 a thousand to \$1.50, while the differential on higher grades will be lessened. The fifteen Republicans who bolted were in favor of McCumber's amendment putting rough and undressed lumber on the free list. On the other hand, Democratic support of the higher rate, which showed 17 strong will be retained by advancing the duty on rough lumber.

Oil Magnate Rogers' Estate Said to be \$100,000,000

New York, May 25.—Mild interest was aroused in Wall Street yesterday by a circumstantial report that when the will of Henry H. Rogers is read his estate will be found to be nearer \$100,000,000 than \$50,000,000, as had been generally estimated.

The report had it that the notion that a large part of Mr. Rogers' fortune was not, as supposed, tied up in his Virginia Railway, and that his stake in this venture would prove to be only a small part of his vast capital. None of those closely associated with Mr. Rogers in his lifetime would say a word in confirmation of the report. John D. Ryan of the Amalgamated Copper Company, said that nothing would be made public concerning Mr. Rogers' fortune until after his will is read, which will probably be tomorrow.

Wall Street meanwhile accepted the report as one of many guesses, few of which have been regarded as accurate.

Jewelry includes everything—Diamonds, Rings, Bracelets, Pins, Chains, Fobs, Lockets, Link Buttons, Chains, etc., of the latest designs and best quality.

TEDDY AND KERMIT STILL HUNTING BUFFALOES

Both Thoroughly Acclimated and the Colonel's Face is Strongly Bronzed From Hot African Winds and Sun.

(By Warrington Dawson, Staff Correspondent of the United Press.)

Nairobi, British East Africa, May 25.—The United Press correspondent was accorded the privilege of spending Sunday and Monday with the Roosevelt hunting party at its camp on the Heald's ranch and on Monday was permitted to ride with Colonel Roosevelt on a buffalo hunt. All the stories told by the camp followers and run-ners of Mr. Roosevelt's popularity with the other hunters and the native and of his and Kermit's prowess were fully borne out by your correspondent's observations on Monday's hunt. The hunt was rewarded by seven buffaloes whose trail was picked up near the camp. Although the party rode hard no trace of the herd could be found and he and Kermit had to content themselves with shooting smaller game including warthogs and ponies. They bagged a number of these and established a record for the day. Kermit, also, had great luck and killed a warthog of record size.

The health of both the Colonel and his son is splendid. They have suffered but lightly from any of the African ailments and are now thoroughly acclimated and able to endure as much hard work as any of the natives. The Colonel's face, always a florid, is now the darkest bronze from the hot African winds and sun. He is enjoying every minute of his hunting and declares he is having so many exciting experiences that it will be hard work for him to select the most interesting of his public narratives. The party will remain here until June 2 when they will start south on a seven weeks' hunting trip under the leadership of M. Selous, the famous hunter. The object of this hunt will be primarily for elephants and the Colonel looks forward to it with considerable anticipation.

ARRESTED BECAUSE HE PASSED BAD CHECKS

Torrington, May 25.—John Spencer, aged 30, who is wanted by the New Haven police for issuing alleged worthless checks, was arrested last night by Chief of Police Hull and held for the New Haven officers who will come to-day for him. Spencer has been in town about two weeks, stopping at the Conley Inn. He had been selling books. One check he issued was for \$100. He had two cents in the bank on which he drew the checks.

ROBBERS GET 15 YEARS BUT ONLY GOT 65 CENTS

New York, May 25.—Judge Fawcett, sitting in Part I. of the County Court, Brooklyn, yesterday, sent two men to Sing Sing for fifteen years for holding up a man on the street and robbing him of 65 cents. They are David Anderson of 87 Eagle street and Michael Condon of 240 Kent street. Both had been arrested before for similar offenses.
